Fifth quarter exports	\$2,160 million	11%

Overview of June 2026 exports

June exports

The June exports very similar to May exports, with a significant increase in the volume of exports from the same month last year, and an even more significant increase in the value.

Sheepmeat exports in June were up 40% by volume from last June to 30,043 tonnes. While this was a large increase, the volume of sheepmeat exports last June was the lowest it has been in June for a number of years, and the volume of exports this June was in line with June exports for the previous five years. The value of exports was up 53% to \$458 million. This was a significant increase – and a record value for sheepmeat exports in June.

It was a similar story for beef, with the volume up 25% from last June to 51,344 tonnes and the value up 52% to \$679 million. The volume of beef exports last June was relatively low and this June's volume was slightly above average in June for the previous five years. However, the value of exports was a record for June and the 2nd highest value for beef exports in a month behind May.

There was also an increase in fifth quarter exports in June, which were up 41% to \$230 million.

This means that total exports in June were worth \$1.37 billion, 50% higher than last June and a record value for June exports.

2025/26 annual exports

Total red meat plus fifth quarter exports were worth \$13.13 billion in 2025/26, a 21% increase from 2024/25 and a record for annual exports.

There was an increase in the value of exports to all the main markets. Below are the top 5 markets for the year, with brief commentary on trends in each market during the year:

United States, \$3.8 billion (up 21% from 2024/25). The volume of beef exports to the US was largely unchanged from 2024/25, but the value increased 22% to \$2.6 billion. Sheepmeat volume increased 13% and the value increased 22% to \$757 million. Fifth quarter exports to the US (predominantly tallow, blood products and offals) were worth \$412 million, a 12% increase on 2024/25.

China, \$2.7 billion (up 7%). The volume of both sheepmeat (-13%) and beef (-8%) exports to China was lower than in 2024/25, but the value of exports was higher with Sheepmeat up 7% to \$1.2 billion and beef up 4% to \$947 million. Fifth quarter exports also increased by 13% to \$580 million, with casings and tripe and hides and skins making up the majority of exports.

European Union, \$1.9 billion (up 25%). The volume of sheepmeat exports was up 3% from 2024/25, but the value increased 28% to \$1.5 billion. There was also significant growth in beef exports, up 45% to \$185 million. There was a small 4% increase in the value of fifth quarter exports to \$265 million, which were mostly made up of hides and skins and blood products.

United Kingdom, \$1.0 billion (up 51%). While the volume of sheepmeat exports decreased by 7%, the value was up 20% to \$592 million. Beef exports increased 183% by volume and 193% by value to \$350 million, making the UK the 4th largest beef market for the year. Fifth quarter exports were worth \$61 million, 12% higher than 2024/25, and were mostly offals and blood products.

Canada, \$740 million (up 32%). Sheepmeat exports to Canada were up 20% by volume and 44% by value to \$241 million. Canada was the 3rd largest beef market for the year, with exports growing 6% by volume and 27% by value to \$465 million. Fifth quarter exports were worth \$34 million and were mainly offals and prepared meat products.

The growth in the value of exports was driven by higher global prices as export volumes were essentially unchanged from 2024/25.

The volume of sheepmeat exports increased by 1% to 371,748 tonnes, but the value grew by 26% to \$5.2 billion. The volume of beef exports was unchanged at 461,496 tonnes, but the value grew by 21% to \$5.8 billion. Fifth quarter also grew by 11% and were worth \$2.2 billion for the year.
