Statistics New Zealand data is provisional for the three most recently released months

Notes

Volume. Shipped weight

Value. Free on Board (FOB) - the current market value of goods in the country of origin, including all costs necessary to get them on board the ship.

| Summary of red meat and co-product exports, November 2025 | | Change from November 2024 |
|---|---|---|
| **Overall exports** | $931 million | 11% |
| **Top five overall markets** | United States - $201 million | -11% |
| | China - $189 million | -17% |
| | European Union - $162 million | 47% |
| | United Kingdom - $65 million | 44% |
| | Canada - $60 million | 68% |
| **Sheepmeat exports** | 28,756 tonne | -6% |
| | $402 million | 25% |
| **Beef exports** | 30.408 tonnes | -17% |
| | $364 million | 3% |
| **Fifth quarter exports** | $164 million | 0% |

**Overview of November 2025 exports**

Overall exports

While the overall value of exports increased 11% from last November, to $931m, there was a drop in the value of exports to the two largest markets, with exports to the US down 11% to $201m and exports to China down 17% to $189m.

The drop in exports to these two markets was made up for by growth in exports to other markets, in particular the EU (up 47% to $162m), the UK (up 44% to $65m) and Canada (up 68% to $60m).

Sheepmeat

The volume of sheepmeat exports was down 6% from last November to 28,756 tonnes, but the value increased by 25% to $402m. There was a drop in exports to China and the UK, but this was offset by an increase in exports to the EU (up 61% to $122m) and the US (up 23% to $67m). The EU continues to be the standout sheepmeat with exports for the year-to-date already worth $1.3 billion, 36% higher than the total for 2024.

While the average value of sheepmeat exports was slightly lower than the record levels in October, they were still worth $13.99/kg (the fourth highest average monthly value).

Beef

Beef exports were down 17% by volume to 30,408 tonnes, but only 3% by value to $364m. The volume of exports to the US was down 34% to 8,622 and the volume exports to China was down 33% to 7,826 tonnes.

The drop in the volume of exports to the US can partly be explained by the very high volume of exports to the US last November. It may also be due in part to the US removing tariffs on beef in November, which saw the 50% tariff on Brazilian beef removed and Brazilian exports to the US therefore increasing. However, as the tariff removal was only announced in mid-November, the impact of this may be minimal.

The drop in exports to China is likely due in part to ongoing imports of large volumes of beef from Brazil. While these were down from record levels in September and October, China still imported 116,000 tonnes of beef from Brazil in November.

The drop in exports to the US and China was partly offset by growth in exports to Canada (up 47% by volume and 81% by value), the UK (up 535% by volume and 530% by value), and Japan (up 12% by volume and 39% by value).

Fifth quarter

Exports of fifth quarter products were unchanged from last November at $164m. While there was a drop in the value of exports of most fifth quarter categories, exports of casings and trip increased 1% to $32m, offal exports increased 10% to $27m and tallow exports increased 48% to $26m.

**Top 10 overall red meat and fifth quarter markets by value, month of November 2025**

| | Market | Value (NZ$m) | % of total | Change from same month previous year |
