Statistics New Zealand data is provisional for the three most recently released months

### Notes

Volume.	Shipped weight
Value.	Free on Board (FOB) - the current market value of goods in the country of origin, including all costs necessary to get them on board the ship.

Summary of red meat and co-product exports, August 2023		Change from August 2022
<b>Overall exports</b>	\$730m	-16%
<b>Top five overall markets</b>	China - \$213m	-44%
	United States - \$188m	26%
	Canada - \$40m	136%
	Japan - \$34m	-24%
	Taiwan - \$25m	19%
<b>Sheepmeat exports</b>	25,162 tonnes	6%
	\$236m	-13%
<b>Beef exports</b>	41,466 tonnes	4%
	\$340m	-17%
<b>Fifth quarter exports</b>	\$154m	-18%

## Overview of August 2023 exports

### Overall exports

- \* Exports in August 2023 were worth \$730m, which was 16% less than last August.
- \* While this was a drop of nearly \$138m, last year was a record for exports in August and this August's exports were higher than other recent August months.
- \* The main decline was in exports to China, which were down 44% to \$213m.
- \* In contrast, exports to North America increased to last August, with the US up 26% to \$188m, and exports to Canada up 136% to \$40m

### Sheepmeat

- \* Compared to last August, the volume of overall sheepmeat exports increased by 6% to 25,162 tonnes but the value decreased by 13% to \$236m.
- \* The decline in value was mainly due to a decline in the value of exports to China, which were down 25% to \$73m compared to last August.
- \* The average FoB value of exports to China was \$5,79/kg in August, the lowest that it has been since March 2018.
- \* Sheepmeat exports to the other two major markets, the US and UK increased compared to last August, with the US up 22% to \$41m and the UK up 20% to \$19m.

### Beef

- \* Similar to sheepmeat, the volume of overall beef exports increased by 4% to 41,466 tonnes but the value decreased by 17% to \$340m.
- \* Again, the main decline was in exports to China, which were down 37% by volume to 14,691 tonnes and 56% by value to \$101m. It is worth noting that while this was a large drop, it was from a near record export volume and value to China last August.
- \* Exports to the US continue to recover from low levels last year as the US drought eases and US domestic beef production drops. Compared to last August exports to the US were up 118% by volume to 13,650 tonnes and 82% by value to \$117m.
- \* Similar to the US, there is good demand in Canada, with the volume up 284% to 3,192 tonnes and the value up 230% to \$25m.
- \* While beef exports to the UK are much smaller, NZ continues to benefit from the new beef quota under the UK FTA.
- \* Over the 1st three months of the FTA (Jun-Aug), NZ has exported 653 tonnes of beef, worth \$8.1 million to the UK. This was an increase of 95% by volume and 177% by value compared to the same period last year.
- \* Before the FTA, these beef exports would have been subject to a tariff rate of at least 20%, so NZ has already seen tariff savings of around \$1.6 million in the 1st three months of the FTA.
- \* New Zealand has a 12,000 tonne quota for the 1st year of the FTA, and the export volume in the 1st three months accounts for just over 5% of that quota, so while exports are growing the use of the quota remains modest.

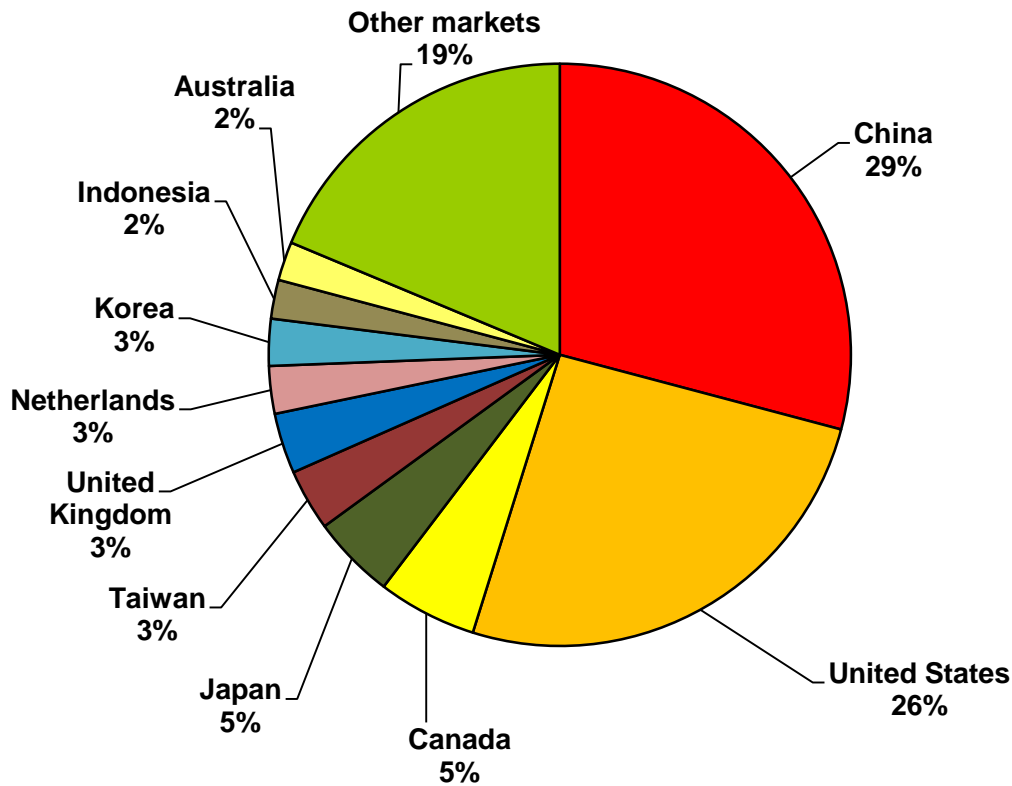

### Fifth quarter

- \* Similar to last month there was a decline in the value of fifth quarter exports in August compared to last year, down 18% to \$154m.
- \* There was a drop in the value of nearly all of the product categories compared to last year, apart from edible offals (up 4% to \$28m) and blood products and glands (up 15% to \$21m).
