Beef exports	497,511 tonnes	3%
	\$4,621 million	1%
Fifth quarter exports	\$2,212 million	8%

Overview of June 2023 exports

Overall exports in June were worth \$935m, which was 12% lower than in June last year.

Among the major markets, compared to last June the value of overall exports decreased to China (down 21% to \$302m), Japan (down 41% to \$41m) and the United Kingdom (down 23% to \$34m), but increased to the United States (up 20% to \$278m), Taiwan (up 28% to \$33m) and Canada (up 54% to \$27m).

The largest decline compared to last June was in sheepmeat exports, which were down 20% by volume to 25,369 tonnes and 28% by value to \$281m.

The volume and value of sheepmeat exports to nearly all of the major market declined, which likely reflects the ongoing tough economic conditions in many of these markets.

One positive market in June was Taiwan, where exports were up 51% by volume to 857 tonnes and 46% by value to \$10m. It has been reported that consumer confidence in Taiwan was at its highest level since May last year, which may help to explain the increase in exports.

Compared to sheepmeat, beef was relatively steady, with the volume up 12% to 52,773 tonnes and the value down 3% to 477m.

Following the pattern we have seen in recent months, beef exports to most of the major North Asian markets were down in June compared to the same time last year, with China down 26% to \$158m, Japan down 48% to \$23m and Korea down 70% to \$8m. The big drop in exports to Japan and Korea is partly because exports last June were historically very high, but the value of exports this June is still below most recent June months.

Compared to last June there was a large increase in exports to the US, up 60% by volume to 21,673 tonnes and 43% by value to \$200m. This was the largest monthly export value since March 2015.

This indicates that the drought is easing, with a reduction in domestic production and a tightening of supply. Supporting this is the latest USDA cold storage report that shows that the volume of beef in freezers in June was down 20 percent from June last year.

The other two markets where there were increases were Taiwan (up 35% to \$21m) and Canada (up 247% to \$18m)

The NZ-UK FTA entered into Force at the end of May and June saw the 1st beef exports to the UK under the FTA, 242 tonnes worth \$3.3 million. Previously, beef exports would have likely been under one of the quotes with a tariff rate of 20%, so we have already seen tariff savings of approximately \$650,000 in the 1st month of the FTA.

Fifth quarter exports were down 2% to \$176m.

Total exports in the 2nd quarter were worth \$2.8 billion, down 5% from Q2 last year. Sheepmeat exports were worth \$1.1 billion (down 14%), beef exports were worth \$1.4 billion (unchanged) and fifth quarter exports were worth \$540m (unchanged).

Total exports in the 12 months ended 30 June 2023 were worth \$10.8 billion, down 1% from 2021/22. Sheepmeat exports were worth \$3.9 billion (down 8%), beef exports were worth \$4.6 billion (up 1%) and fifth quarter exports were worth \$2.2 billion (up 8%).
