## Overview of June 2024 exports

### June exports

- \* Exports in June were generally positive with overall exports worth \$914m, up 2% from last June.
- \* The US was again the largest market with exports worth \$303m, up 14%
- \* There were also increases to Japan (\$61m, up 53%), the UK (\$53m, up 66%) and Canada (\$51m, up 94%)
- \* The major exception once again was China, down 38% to \$176m.
- \* Overall sheepmeat volume was up 22% to 29,829 tonnes from a relatively low level last year, but because of the lower value of exports to China, the value was only up by 8% (to \$294m). The US (\$62m) was the most valuable sheepmeat market for the month, with China dropping by 39% to \$52m
- \* Beef exports were steady, up 1% by volume to 50,907 tonnes and 3% by value to \$470. Apart from another decrease to China (down 44% to \$83m), there were strong exports to the US (up 16% to \$221m), Japan (up 101% to \$46m) and Canada (up 112% to \$35m)
- \* Fifth quarter exports were unchanged at \$150m.

### 2<sup>nd</sup> quarter 2024 exports

- \* Overall exports were down slightly (-1% to \$2.90 billion) largely due to a 40% drop in the value of exports to China, down to \$638m.
- \* Exports to the US were up 17% to \$894m, and exports to Japan were up 77% to \$185m and to the UK were up 56% to \$167m.
- \* Sheepmeat volume was up 4% to 105,658 tonnes, but the value was down 4% to \$1.02 billion. While the value of exports was most markets was up compared to Q2 2023, exports to China were down by 44% to \$228m.
- \* Beef volume was up by 1% 148,064 tonnes and the value was up by 3% to \$1.36 billion. A large drop in exports to China (down 42% to \$274 million) was offset by continued good demand in the US (up 17% to \$634m), further recovery in exports to Japan (up 133% to \$137m) and a big increase in demand in Canada (up 154% to \$73m)
- \* Fifth quarter exports were down 3% to \$518m. A decrease in exports of casings and tripe (down 12% to \$94m) and MBM (down 11% to \$57m) were only partially offset by a large increase in exports of blood products (up 92% to \$65m).

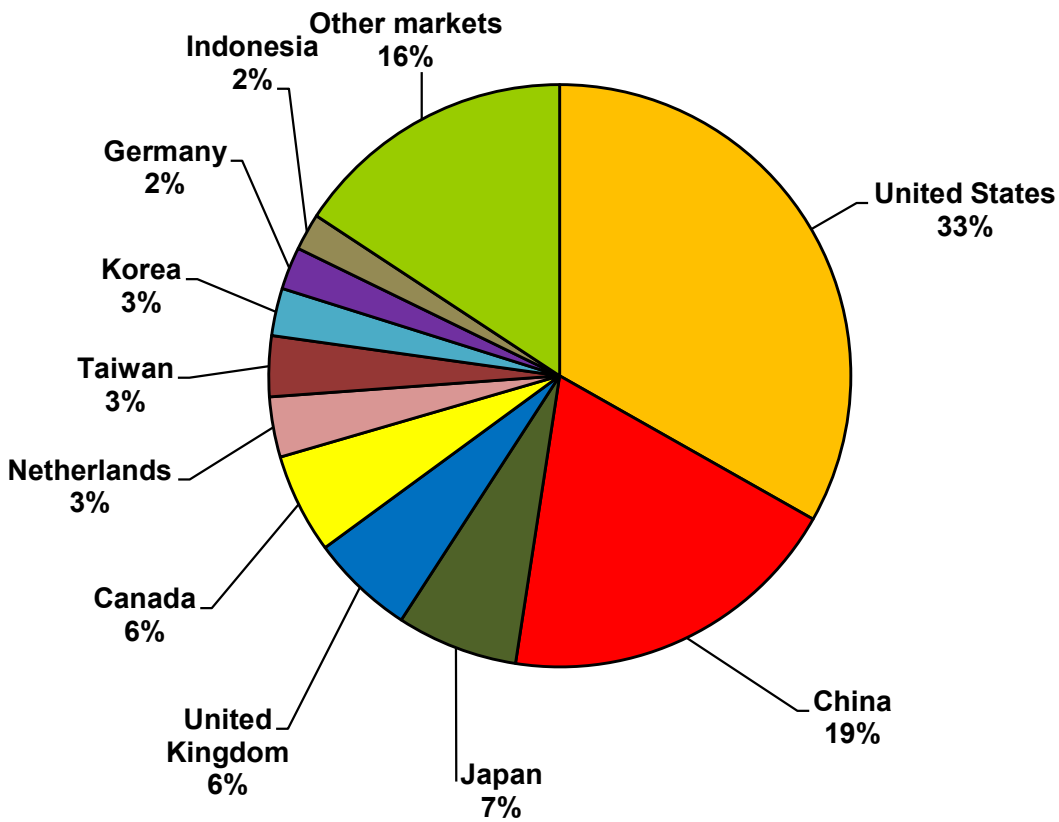

### Annual exports for year ended June 2024

- \* While there has been good demand in the US over the last year and a recover to other key markets in recent months, over the full 2023/24 year total exports were down 7% from 2022/23 to \$9.9 billion.
- \* This was mainly due to China, where exports were down 32% for the year to \$2.86 billion (29% of total exports)
- \* While China was the largest market for the year, it was only just ahead of the US where exports grew by 16% to \$2.66 billion (27% of total exports).
- \* For context, China accounted for 39% of total exports and the US accounted for 21% in 2022/23.
- \* The next three largest markets were Japan (up 13% to \$490m), the UK (up 45% to \$456m) and Canada (up 58% to \$370m).
- \* Sheepmeat volume was up 3% for the year to 389,509 tonnes, but largely because of the weak China market the value was down 9% to \$3.59 billion. While exports to North America increased, exports to the EU fell 10% by value, even though the volume was largely unchanged.
- \* Beef volume was also up 3% by volume to 511,736 tonnes and the value was also down for the year, by 4% to \$4.42 billion. A drop in exports to China partly offset by growth into the US (up 30% to \$1.74 billion) and Canada (up 106% to \$209m) and recovery to Japan (up 27% to \$328m).
- \* The Fob value of beef exports to the US (\$9.29/kg) was also significantly higher than to China (\$7.12/kg) during the year
- \* After a full year of the FTA operating, the UK was one of the top 10 beef markets for 2023/24, 9<sup>th</sup> largest by volume at 3,881 tonnes and 8<sup>th</sup> largest by value at \$48m.
- \* Fifth quarter exports were worth \$1.93 billion for the year, down 13% from 2022/23. The value of nearly all categories was down apart from a small increase in offal exports (up 4% to \$357m), and a larger increase in blood product and gland exports, up 118% to \$270m.
