Statistics New Zealand data is provisional for the three most recently released months

### Notes

- Volume. Shipped weight
- Value. Free on Board (FOB) - the current market value of goods in the country of origin, including all costs necessary to get them on board the ship.

## Overview of April 2022 exports

Total red meat and co-products exports were worth \$999.6m. This was up 16% from last April, and was a record for an April month.

Similar to March, the value of overall exports increased to all the major markets, except China which was down 6% compared to last April.

There was a small drop in the volume of both sheepmeat (down 6% to 35,553 tonnes) and beef (down 4% to 41,350 tonnes). But the value of exports increased compared to last April, with sheepmeat up 8% to \$408m and beef up 25% to \$414m.

The drop in the volume of sheepmeat exports was mainly due to China, but for beef China was steady and the US was down.

Looking at markets apart from the US and China, while chilled exports to the UK were down again, the volume of overall sheepmeat exports to both the UK and the EU were up compared to last two Aprils, although still below the pre-Covid levels.

Also, the value of sheepmeat exports to the UK (\$52.3m) was the highest that it has been in April for a number of years. Potentially, this value would have been even higher if chilled exports were at their normal level.

For beef, April continued the trend of strong exports into the the North Asia markets, particularly Korea. The value of beef exports to Korea have been at record levels in the 1<sup>st</sup> four months of the year.

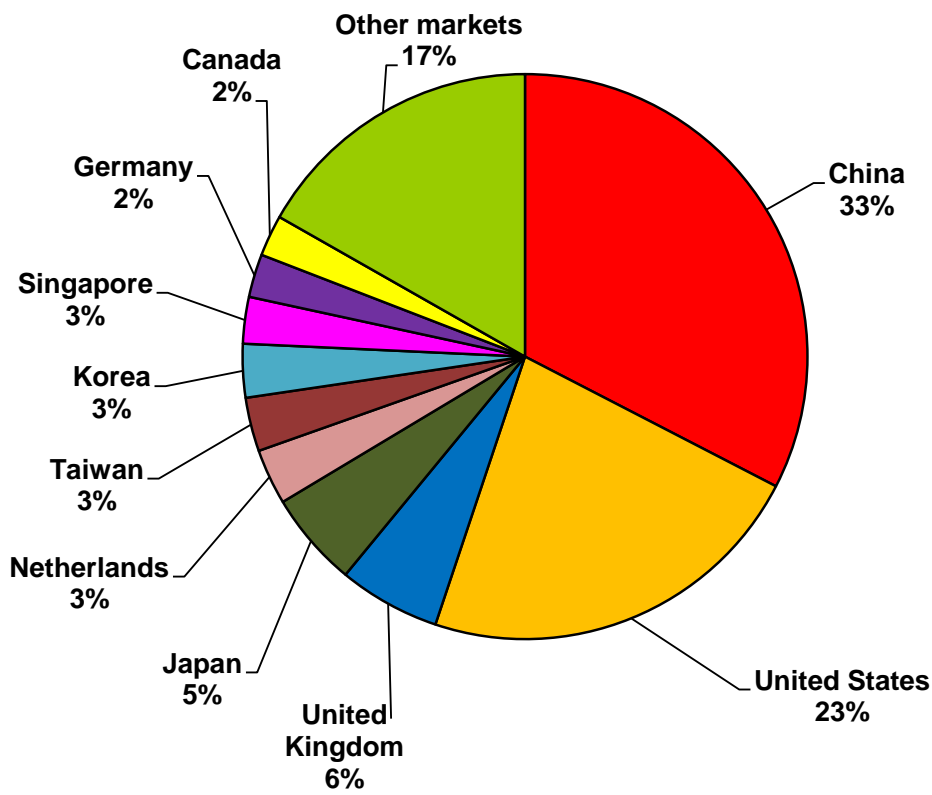

So far this year New Zealand has exported \$131m worth of beef to Korea, which is nearly the same as the value of exports over the whole of 2021 (\$132m).

Finally, it was another strong month for co-products, with the value of all categories increasing and the overall value up 14% to \$178m.

### Top 10 overall red meat and co-product markets by value, April 2022

	Country	Value (NZ\$m)	% of total	Change from same month previous year
