### Notes

- Volume. Shipped weight  
Value. Free on Board (FOB) - the current market value of goods in the country of origin, including all costs necessary to get them on board the ship.

<b>Summary of red meat and co-product exports, August 2024</b>		Change from August 2023
<b>Overall exports</b>	\$608 million	-16%
<b>Top five overall markets</b>	United States - \$198 million	7%
	China - \$107 million	-50%
	Canada - \$38 million	-3%
	Japan - \$29 million	-15%
	United Kingdom - \$23 million	-6%
<b>Sheepmeat exports</b>	16,803 tonne \$170 million	-33% -27%
<b>Beef exports</b>	30,688 tonnes \$286 million	-25% -15%
<b>Fifth quarter exports</b>	\$152 million	-2%

## **Overview of August 2024 exports**

Total exports for the month were worth \$608m. This was 16% down on last August and the lowest August total since 2020.

The US was again the largest market for the month, and compared to last August exports increased by 7% to \$198m. However, exports to most other major markets dropped, with China down 50% to \$107m, Canada down 3% to \$38m and the Japan down 15% to \$29m. The one major market where there was a significant increase from last August was Singapore, where exports were up 359% to \$19m.

The overall drop in value was mainly due to a significant drop in the volume of exports compared to last August, with sheepmeat down 33% to 16,803 tonnes and beef down 25% to 30,688 tonnes.

While exports were down for the month, it is worth noting that for the year-to-date (Jan-Aug) the volume of sheepmeat exports are almost the same as the same period last year (-0.5%) and beef exports are down by only 5%.

There was a smaller decrease in the value of exports for the month, with sheepmeat down 27% to \$170m and beef down 15% to \$286m.

As there was a smaller drop in value compared to volume for both sheepmeat and beef, the average per kilo value of exports was up compared to last August with sheepmeat up by 8% to \$10.12/kg, and beef up 14% to \$9.32/kg.

The increase in the average value for sheepmeat was largely driven by an increase in the value of exports to market outside of the major destinations, although the average value of exports to the EU was up 2.1% to \$15.98/kg.

On the other hand, for beef it was mainly due to an increase in the value of exports to our largest beef market, the US, where the average value was up 25% to \$10.67/kg.

Fifth quarter exports were down slightly (-2%) compared to last August to \$152m.

The main change was a 160% increase in the value of tallow exports to \$27m. Most NZ tallow exports are used as ingredients in bio-fuel manufacturing in the US or Singapore. While exports to the US were up slightly from last August at \$10m, exports to Singapore jumped from \$0 last August to \$15m this August.

## Top 10 overall red meat and fifth quarter markets by value, August 2024
