## **Overview of October 2024 exports**

In contrast to the last 3 months, October exports were generally positive with total exports up 7% from last October to \$662 million.

Exports to China were down again, by 10% to \$170m, but it re-gained the position as the largest market for the month as compared to recent months there was a smaller drop in the value of sheepmeat and beef exports (by 16% to \$79m and 17% to \$56m), and a 28% increase in the value of fifth quarter exports to \$35m.

Exports to the US and Canada were up by \$13% to \$145m and 3% to \$34m respectively, mainly due to an increase in beef exports to both these markets. Apart from a small drop in exports to Japan (down 5% to \$28m), there was an increase in overall exports to the UK and the major European markets mainly due to growth in sheepmeat exports.

Compared to last October, the volume of sheepmeat exports was down 3% to 25,071 tonnes but the value was up 3% to \$267m, largely driven by an 18% increase in chilled exports. The main growth in overall exports was to the EU, up 36% by volume to 4,921 tonnes and 51% by value to \$85 million, and the majority of these exports were chilled (2,594 tonnes worth \$46m).

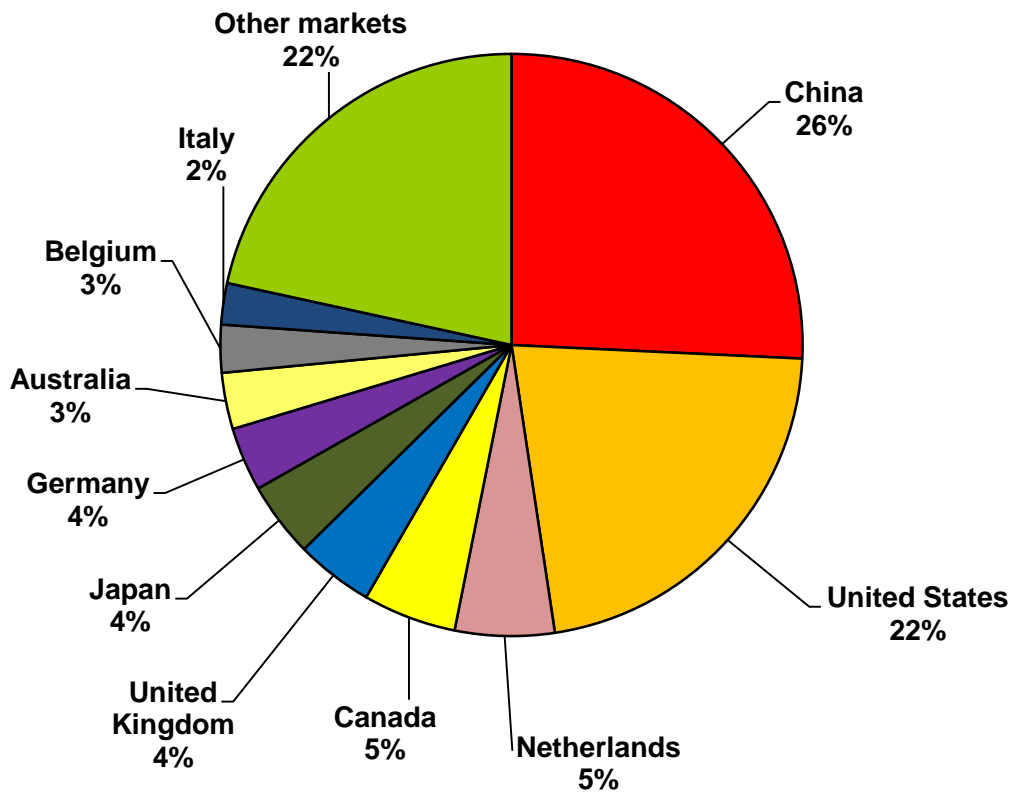

It was a similar story for beef, with the volume up 2% to 26,908 tonnes and the value up 10% to \$251m. While frozen exports were at a similar level to last October, chilled exports grew 19% by volume to 3,120 tonnes and 31% by value to \$55m. The major chilled market for the month were the US at \$15m (up 64%). Japan \$13m (up 47%), China \$6m (down 3%) and the UAE \$3m (up 48%).

Fifth quarter exports increased 12% to \$144m, largely due to a 96% increase in the value of blood products to \$29m, and a 27% increase in the value of hides and skins exports to \$27m.
