Statistics New Zealand data is provisional for the three most recently released months

### Notes

Volume. Shipped weight  
Value. Free on Board (FOB) - the current market value of goods in the country of origin, including all costs necessary to get them on board the ship.

<b>Summary of red meat and co-product exports, January 2025</b>		Change from January 2024
<b>Overall exports</b>	\$927 million	28%
<b>Top five overall markets</b>	United States - \$\$277m	64%
	China - \$276 million	3%
	United Kingdom - \$60 million	58%
	Canada - \$41 million	89%
	Netherlands - \$33 million	9%
<b>Sheepmeat exports</b>	35,220 tonnes	0%
	\$359 million	22%
<b>Beef exports</b>	38,788 tonnes	6%
	\$409 million	36%
<b>Fifth quarter exports</b>	\$159 million	22%

## Overview of January 2025 exports

### Note

*There are some changes to the stats starting this month. Following feedback, the top 10 sheepmeat and beef tables now include the EU as a single market and there are additional tables showing sheepmeat and beef exports to EU markets. The fifth quarter table still shows individual EU countries as there are distinct markets in the EU for different fifth quarter products (e.g. Italy for hides, and Denmark for blood products).*

### Overall exports for the month

It was a good start to the year, with the value of overall exports up 28% from last January to \$927m and an increase in the value of exports to all the major markets (including China).

The US was the largest market for the month (up 64% to \$277m), followed by China (up 10% to \$276m), the UK (up 58% to \$60m), Canada (up 89% to \$41m), and the Netherlands (up 9% to \$33m).

### Sheepmeat

The volume of sheepmeat exports was unchanged from last January, at 35,220 tonnes. A drop in the volume of exports to the EU (down 20% to 4,775 tonnes) and US (down 24% to 1,692 tonnes) was offset by an increase in exports to China (up 7% to 19,436 tonnes), the UK (up 9% to 3,769 tonnes) and Malaysia (up 107% to 1,140 tonnes).

The value of sheepmeat exports increased 22% from last January, to \$359m. There was a small drop in the value of exports to the EU (down 1% to \$80m), and a 10% drop in the value of exports to the US to \$37m, but this was more than offset by 44% increase in the value of exports to China (\$134m) and a 53% increase in the value of exports to the UK (\$50m), plus growth in exports to Canada and Malaysia.

### Beef

The volume of beef exports was up 6% to 38,788 tonnes and the value of exports grew by 36% to \$409m. While exports to China were down 14% by volume and 4% by value there was significant growth in exports to North America, particularly by value.

In the United States, while overall beef production is at a similar level to last year, largely due to heavier carcass weights, lower levels of domestic cow processing is increasing the demand for imports of processing beef.

The volume of exports to the US increased by 24% to 16,743 tonnes, but the value increased by 73% to \$194m. Similarly, the volume of exports to Canada increased by 56% to 2,499 tonnes, but the value increased by 121% to \$28m.

Exports were mixed in the major North Asian markets outside of China. While exports to Japan were down by volume and value compared to last January, exports to Taiwan were steady and there was a good recovery in exports to Korea, up 37% by volume and 66% by value.

### Fifth quarter

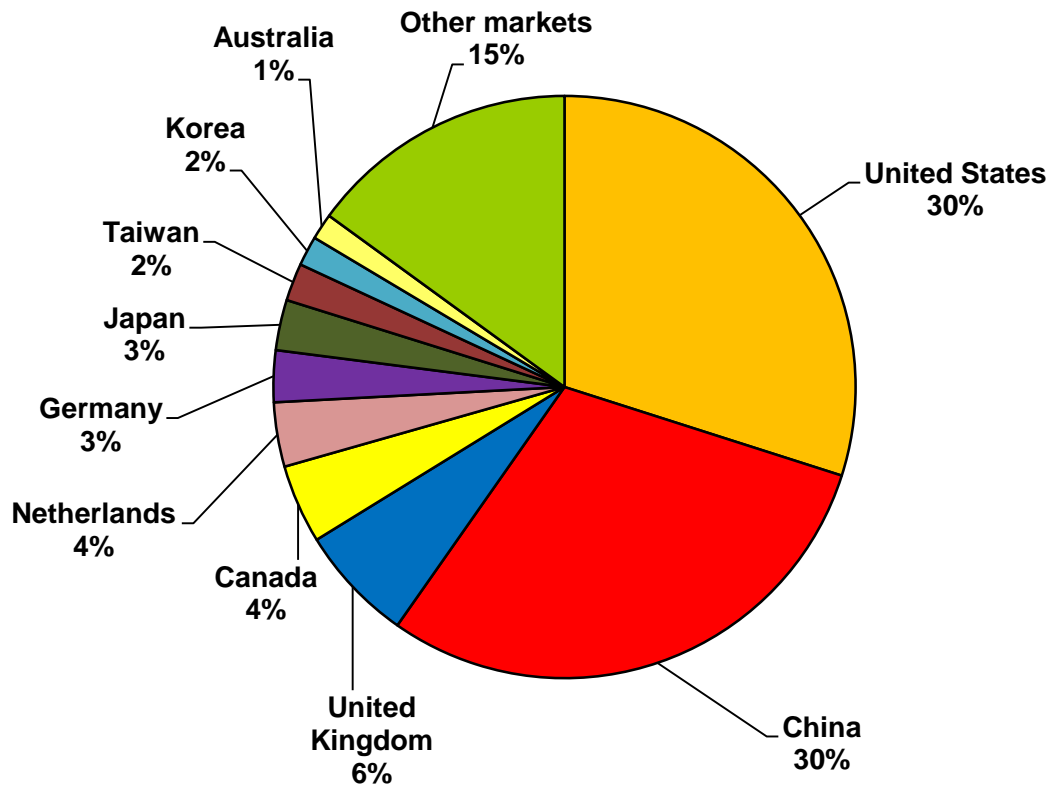

Fifth quarter exports were up 22% to \$159m, largely due to an increase in exports of tallow to the US which meant that overall fifth quarter exports to the US increased by 184% to \$47m for the month.

Tallow was the most valuable fifth quarter export in January (\$34m), followed by casings and tripe at \$30m and edible offals at \$26m. The US was the largest market for tallow in January, while most of the casings and tripe exports went to China, and edible offal exports went to a variety of markets, including the US, China, Japan and the UK.

**Top 10 overall red meat and fifth quarter markets by value, month of January 2025**
